# UNIVERSITY OF CALIFORNIA HEALTH

Protecting and improving the health of all Californians

University of California's health system is committed to protecting and improving the health of all people across California, serving as a model for the nation and the world. Work towards this vision happens across the state by delivering high-quality care, training the next generation of health care professionals and discovering new treatments and cures through research – all in support of UC's tripartite mission.

UC Health At A Glance

UC Health is the largest public academic health system in the nation. It comprises six academic health centers, 20 health professional schools, a Global Health Institute and systemwide services for UC employees and students.

UC Berkeley
Herbert Wertheim School of Optometry & Vision Science
School of Public Health
UCSF School of Medicine Regional Campus
– Joint Medical Program
– PRIME-US (Urban Underserved)

UC Davis
UC Davis Health
UC Davis Children's Hospital
UC Davis Comprehensive Cancer Center
School of Medicine
– Rural PRIME
– Tribal Health PRIME
Betty Irene Moore School of Nursing
School of Veterinary Medicine

UC Irvine
UCI Health
UCI Chao Family Comprehensive Cancer Center
School of Medicine
– PRIME-LC (Latino Community)
– PRIME LEAD-ABC (Leadership Education to Advance Diversity- African, Black, and Caribbean)
Sue & Bill Gross School of Nursing
School of Pharmacy & Pharmaceutical Sciences

UCLA
UCLA Health
UCLA Mattel Children's Hospital
UCLA Jonsson Comprehensive Cancer Center
School of Dentistry
David Geffen School of Medicine
– PRIME-LA (Leadership and Advocacy)
School of Nursing
Fielding School of Public Health

School of Dentistry
School of Medicine
– PRIME-US (Urban Underserved)
– San Joaquin Valley (SJV) PRIME
– San Joaquin Valley (SJV) PRIME+
School of Nursing
School of Pharmacy

UCSF Fresno
UCSF School of Medicine Regional Campus
– San Joaquin Valley (SJV) PRIME
– San Joaquin Valley (SJV) PRIME+

Training California's health care workforce

UC Health has one of the largest health professional instructional programs in the nation, spanning 7 health professions.

16,100
Health professional students

77%
UC-trained medical residents remain in California – the highest in the country

6,000
Medical residents and fellows – 40% of California's total trainees

50%
First-year UC medical students are from underrepresented backgrounds

UC Programs in Medical Education (PRIME)

UC PRIME is an innovative training curriculum, focusing on meeting the needs of underserved communities and addressing California's workforce shortages. Approximately 84 percent of UC PRIME students across the 10 programs are from groups underrepresented in medicine, and many are first-generation college students.

Providing high-quality care to all Californians

UC academic health centers care for patients with the most complex cases, and offer services that are not delivered elsewhere in the state or are limited in availability. UC Health locations provide health care services and capabilities that cannot be found at other health care providers in the state or are very limited in availability, like trauma, burn and transplant care. UC Davis Health, UCI Health, UCLA Health, UC San Diego Health and UCSF Health own and operate hospitals. UCR Health provides clinical care through community facilities, along with owned and operated clinics.

Together, UC Health locations are the second largest provider of inpatient services to Medi-Cal enrollees in the state, despite having only 6 percent of all hospital beds in California.

UC's academic health centers contract with nearly all of the state's Medi-Cal managed care plans to provide care.

10 million
Outpatient visits

1.23 million
Inpatient days

3,904
Licensed beds

394,000
Emergency visits

13
Acute and rehabilitation hospitals

5 of 8
National cancer institute-designated comprehensive cancer centers in California

UC Health professionals see patients in a range of settings:

UC hospitals and outpatient and ambulatory clinics

Community and county hospitals
Federally Qualified Health Centers (FQHCs).
UC owns and operates FQHCs at UCI Health and UCSF Benioff Children's Hospital, and provides services at other FQHCs throughout the state.
A self-supporting health care system

UC Health's not-for-profit academic health centers must generate their revenues through reimbursement for care delivered. These funds cover the costs of clinical operations, provide financial support to UC academic programs and subsidize care for vulnerable and underinsured Californians. In total, 72% of inpatient days are for people covered by Medi-Cal or Medicare. **In FY2021-22, UC Health delivered $4.4 billion in community benefits across the state.**

Inpatient days by insurance type

- 36% (Medi-Cal)
- 36% (Medicare)
- 28% (Commercial)

Academic health center revenue by source

- 21% (Medi-Cal)
- 24% (Medicare)
- 55% (Commercial)

Legend: ■ Medi-Cal ■ Medicare ■ Commercial

Innovating for the future

UC's research discoveries prevent and cure diseases, create new technologies for diagnosing and treating illnesses, and provide new strategies for staying healthy. This work happens through data-driven investigations powered by the UC Health Data Warehouse and 4,900 clinical trials for more than 2,400 conditions in areas such as lung cancer, diabetes, melanoma, COVID-19, and more. UC received $2.6 billion in grant funding from the National Institutes of Health last year – more funding than any other institution in the country.
